CASE CONSTRUCTION MACHINERY PRODUCT SOFT LAUNCH

A group photo of Rastgar team with CASE delegate at Sheraton, Karachi

FIAT CNH Group reposes confidence in Pakistan Construction Machinery market launches CASE Construction machinery for Pakistani Marble, Mining and Construction Sectors.

"Construction and marble sectors have a great future in Pakistan", said Mr. Achille Caruso, Head of International Region, Central Asia Fiat CNH Construction Machinery Group while launching the full range of CASE Construction Machinery in Pakistan. Caruso said "Fiat CNH is already enjoying a great reputation in Pakistan through its agricultural tractors and IVECO heavy trucks, which in wide use throughout Pakistan and now it a great opportunity to bring CASE construction Machinery to Pakistan.

Mr. Caruso had great appreciation for the Distributor in Pakistan, Rastgar & Co, who has achieved a great amount of customer confidence through their program of dependable sales, service and training facilities for the lines of products which Rastgar & Co distributes in Pakistan. Maqsood Zulfqar, CEO, Rastgar & Co said his company plan to bring in close \$ 10 million equity investment in expanding the company's operation to cater to the growing needs of the market.

Through a comprehensive after sales services approach, that includes parts availability, technical assistance, training and financial services, Rastgar & Co are committed to effectively responding to its customers' every business need throughout Pakistan.

CDA Beautify Islamabad with CASE Backhoe 580S

Islamabad is garden city of Pakistan. The environment and horticulture directorate of Capital Development Authority (CDA) are working hard to beautify the town with new parks and maintenance of its wooded area. For this purpose the CDA is using CASE multipurpose Backhoe loader model 580S and other CASE equipments, signifying its confidence in CASE equipment which is seen frequently at work in different parts of the town.

VP Instruments and RASTGAR & Co,

VP INSTRUMENTS

VP Instruments provide its Customers worldwide with high quality, easy-to-use solutions for compressed air energy management and its product help to reduce compressed air consumption and energy costs. VP Instruments is certified ISO 9001:2000.

Measure, discover and save Energy!

The VP FlowMate and VPFlowScope product lines give insight in compressed air systems and can help to find energy losses. Compressed air is a very expensive energy source. In fact it can be about 20 times more expensive than electricity. VP Instruments installed in air lines can help you improve and optimize your compressed air system and reduce energy costs of plant.

VP Instruments products can be found all around the world. About 90% of its customers are from outside of the Netherlands. VP serve many industries, for example automotive, glass manufacturing, cement, food and beverage, consumer goods.

Dedication to quality

VP Instruments delivers products and services beyond its customer's expectations. Rastgar & Co are proud of our dedication to continuous product improvement, innovation and offering the best possible service. VP Instruments' products are KEMA certificated. RASTGAR & Co is the sole distributor of VP Instrument products in Pakistan.
